OBJECTIVE

As a recent graduate, looking for a challenging position as a Software Developer in an organization that values innovation, creativity and continuous learning, where I can apply my technical skills and knowledge to develop high-quality software solutions.

EDUCATION

COURSE	INSTITUTE	CGPA	YEAR OF PASSING
B. TECH (ECE)	IIIT, RK VALLEY	8.49	2023
PUC(MBiPC)	IIIT, RK VALLEY	9.2	2019
SSC	AP MODEL SCHOOL	10	2017

SKILL SET

- Languages : Java (Core & Advanced), Python, C
- J2EE Technologies : Jdbc
- Web Technologies : Html, CSS, JavaScript
- Data base : MySQL
- Office Tools : MS Office (Word, Excel, PowerPoint)
- IDE and other tools : Eclipse, VS Code, MySQL Workbench, Windows, Linux, MATLAB

PROJECTS

1. Bank Management System

Designed a java-based application that efficiently manage bank accounts and related operations. This system provides a user-friendly interface to interact bank's database effectively.

Technologies used: Core java, MySQL

2. Personal Portfolio Website

Designed and developed a dynamic portfolio website to showcase my skills and projects allowing potential employers and clients to gain insight into my capabilities and work style.

Technologies used: Html, CSS, JavaScript

3. Smart Attendance System using RFID [Final year project]

Designed and implemented a smart attendance system aimed to enhance efficiency and accuracy in recording attendance for large groups. It provides valuable insights for attendance management.

Technologies used: RFID, Arduino

CERTIFICATIONS

- Full Stack Java Developer **Palle Technologies**
- Programming for Everybody **Coursera**
